

NAVIGATION ADVISORY NOTICE

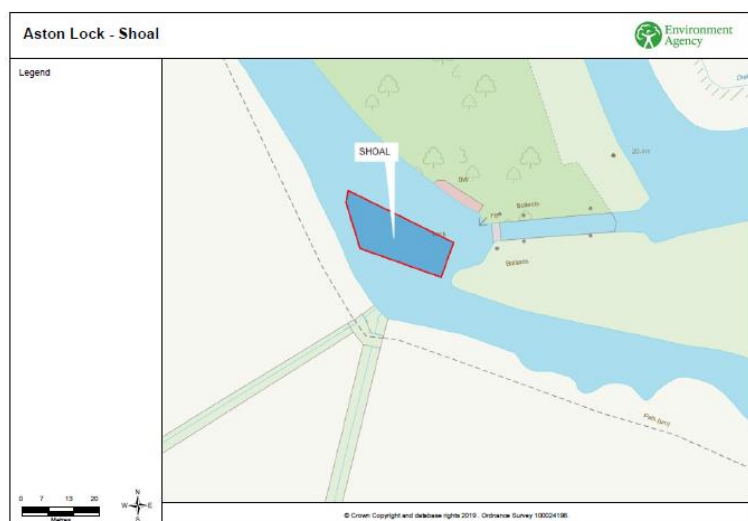

RIVER NENE

DATE: 19 April 2021 – Until Further Notice

LOCATION: Ashton Lock Downstream Approaches

DETAILS: Please be aware of a large gravel shoal forming at the backwater inlet 10m downstream of the lock on LH side (looking DS). This is causing issues, both when approaching from downstream and when exiting from the lock.

Navigators are advised to keep well over to right hand side when exiting and to ensure the stern does not encroach onto the shoal.

When approaching from downstream skippers are advised to keep vessel well over to left hand side by the landing stage, again ensure your stern is kept clear of the shoal.

We apologise for this and ensure you that we are working to have this area buoyed off in due course. Works are underway to remove this issue at the earliest opportunity.

For further information, please contact the Environment Agency on 03708 506506 between 9am and 5pm Monday to Friday and ask for the Waterways team in the Lincolnshire & Northamptonshire Area.
